

# LABORATORY MANUAL

## ***X-Town Laboratory Manual:***

Set up and idea of the manual allow every single dairy to extend and develop a Dairy Laboratory Manual, so it exactly covers the need of their dairy.

### ■ **Introduction:**

■ During the practical introduction and implementation of X-town Quality & Working Manual in many dairies, it was found some dairies had a desire that the manual section "Quality Control" was extended to cover subject, which in principle belong to normal dairy laboratory work, control and recording.

■ Above lead to development X-Town Dairy Laboratory Manual with the main idea:

- To describe principle and method for the most important and common analysis used for controlling of milk and dairy product during the daily operation.
- To prepare a flexible Dairy Laboratory Manual, which can be developed and build up and change easily according to individual need of every single dairy.
- To prepare guidelines for an easy and comprehensive documentation in an Excel Template for registration of analysis data in order to get a total picture of the dairy's quality control from milk arrives to the dairy to the final product leaves the dairy.

### ■ **Dairy Laboratory Manual:**

■ X-town Dairy Laboratory Manual is based on many years experience from practical laboratory work in the Danish Dairy Industry

■ The laboratory manual contain the all common analysis, which is used in most dairy to control the daily operation, just as organoleptic judgement of milk and milk product and dairy laboratory recording is part of the manual.

### ■ **Dairy Laboratory Manual:**

Use X-Town Dairy Laboratory Manual as source of inspiration to prepare your own Factory Specific Laboratory
